### Summary

Comprehensive Care Platform for Membership Based Managed Care Groups, Companies and Public Health to manage non-emergent primary and specialty care. McKinsey and Company analyst suggest that approximately 250B in annual healthcare spend to be shifted to virtual or near virtual care. Over the long term, healthcare is significantly shifting towards value-based care. Organizations will scale up to manage larger populations needing a robust virtual care platform. This is an opportunity to acquire a start up venture that is led by one senior medical officer and senior executive with 25 years of experience in various technical solutions in healthcare/medical. **This opportunity is in a pre-revenue stage.**
