Summary

Established, successful wrecking yard with excellent cash flow.

Two businesses in one place. They sell late model vehicle parts to a growing worldwide market. They also buy, modify and sell vehicles to purchasers around the globe.

Wrecking yards are a recession proof business that does equally well in hard and good times.

Experienced yard and parts managers provide management.

Our Southern CA economy is vehicle driven so the perfect place to be a supplier of parts and vehicles is in Greater Los Angeles. However, the Internet brings customers from all parts of the USA and even worldwide.

You have the best of two worlds as the business can't be successfully outsourced but you can export parts and cars.

This business is a bargain as it will sell for less than the retail value of the inventory and the equipment.

It is pre-approved for an SBA loan.

The location is secure and the rent is excellent.

If you like cars you will love this business.

Sufficient capital for vehicle sales is essential for success.
